

**The scariest things about  
United Methodist Women  
are  
Gray hair, Bones, Graves, ...**

### **Why?**

While we think gray is the most beautiful of all hair colors we fear this means we are all getting too old.

Our bones creak and moan when we try to do all we want to do for United Methodist Women.

We pay tribute to those now in their graves but we want to assure there are plenty young women to take our place.

### **How can we take the scare out of United Methodist Women?**

By cultivating and encouraging young women and girls. A few suggestions are listed here.

1. Send at least one young woman to a Limitless Event.
2. Send at least one young woman to Mission u.
3. Send at least one young woman to Spiritual Enrichment Retreats.
4. Routinely include invitations to young women in your church bulletin.
5. Routinely include invitations to young women in your church newsletter.
6. Host a birthday party for all between the ages 13-17.
7. Host a party for graduating seniors.
8. Host a girl's night out for young mothers.
